CCC (Calendula, Comfrey, Coneflower) Cream

What is it?

This is a soothing cream that is made from a combination of three herbs: Calendula, Comfrey and Coneflower (Echinacea). While all three have individual characteristics, the combination of the three provides a soothing blend with anti-inflammatory and wound healing properties.

This cream is beneficial for anyone with eczema, psoriasis, dry itchy skin, or general skin irritation and inflammation.

How much should I use?

Apply a thin layer to affected areas 2-3 times daily or as needed.

Is It Safe?

Quality is very important when choosing over the counter supplements or herbs. This product is very safe to use topically, and is designed to be hypoallergenic.

Please consult your provider or the Pharmacist if you have further questions or concerns. We are dedicated to your health and well being!
